

CLEAN & SEAL

Protect & Refresh your Pavers with our professional Clean & Seal service

Clean & Seal is a professional service that deep cleans your pavers and then applies a protective sealer over the surface. It helps bring back the natural color of concrete and stone and makes everything look fresher and more vibrant. In South Florida, our strong sun, heavy rain, and humidity can quickly fade, stain, and wear down unprotected pavers. Clean & Seal creates a barrier against these elements so your patio, driveway, or pool deck stays looking better and lasts longer.

Designed for South Florida's sun, rain, and humidity.

Why Clean & Seal Matters

ISSUES

- Harsh UV sun fades pavers and washes out color over time.
- Heavy rains and humidity encourage mold, mildew, and algae.
- Unsealed joints without fine mason sand can shift, erode, and let airborne weeds grow.

BENEFITS

- Protects against fading, staining, and surface wear.
- Enhances natural stone and concrete color for a richer 'pop.'
- Sealing with mason sand stabilizes pavers, keeps them cleaner, and reduces weeds.

How Often Do I Need It?

In South Florida's climate, most paver surfaces benefit from professional cleaning and sealing about every other year, depending on traffic and exposure.

Pro Tip

Routine maintenance helps you avoid costly restoration or premature replacement later.

CLEAN & SEAL

Long-Term Value for your Home

- Helps extend the life of your pavers by reducing damage from the elements.
- Makes regular cleaning faster and easier.
- Can help you avoid costly repairs or early replacement.
- Protects the look and value of your home's outdoor spaces.

What to Expect

Professional Cleaning

We remove dirt, mildew, and buildup to prepare the surface properly.

Expert Joint & Surface Prep

We prep the pavers and joints so the sealer bonds well and protects evenly.

Premium Sealer Application

We apply a high-quality sealer designed for South Florida conditions.

Your paver area is typically ready for use again in about 24 hours for light foot traffic.

Why Choose Us

U.S. Brick & Block specializes in the care and maintenance of South Florida's concrete and natural stone pavers. Our experienced team understands how the region's sun, humidity, and rain can impact your surfaces - and we use proven methods and premium sealers to protect them. We believe in honest, practical maintenance advice so you can preserve the beauty and value of your investment. Every project receives the same care and attention to detail we'd give our own homes.
